

SUMMARY OF FRIEND'S VIEWS ON THE TALK-

Duration: 6 minutes

Gender: Female

Age : 20

Mother tongue : Tamil

Summary- According to her the questions were repeated again and again with slight variation. Some questions were not even related to the answers given. After some questions she figured out that this is a computer program. She told that it could be created better way by inserting more and more questions and also checking grammar of the language before asking. It is not so good to help depressed people but might entertain the bored ones.
